

ColdAIR CBS System

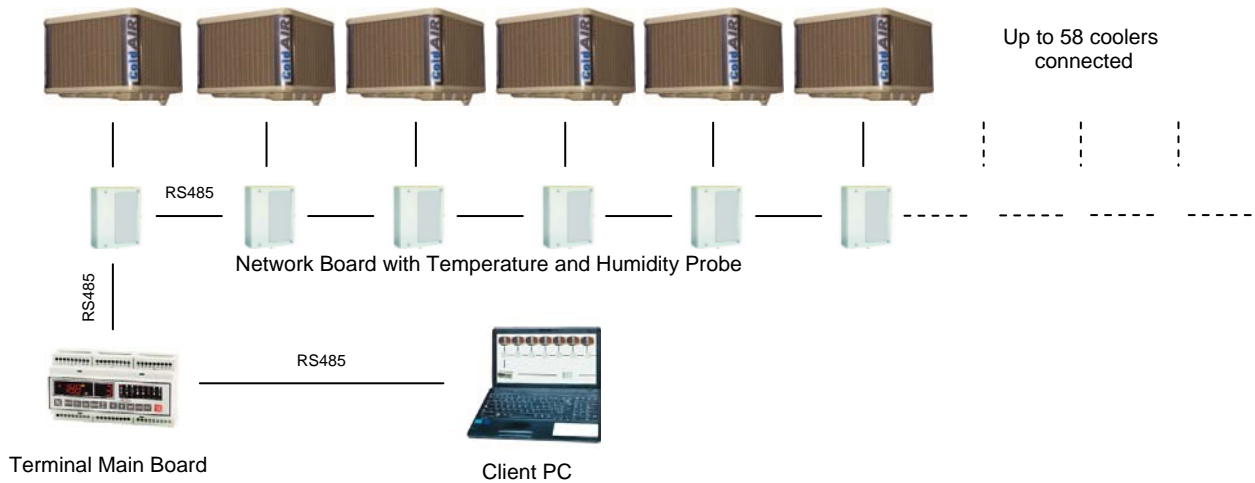

EVAPORATIVE COOLING SYSTEMS

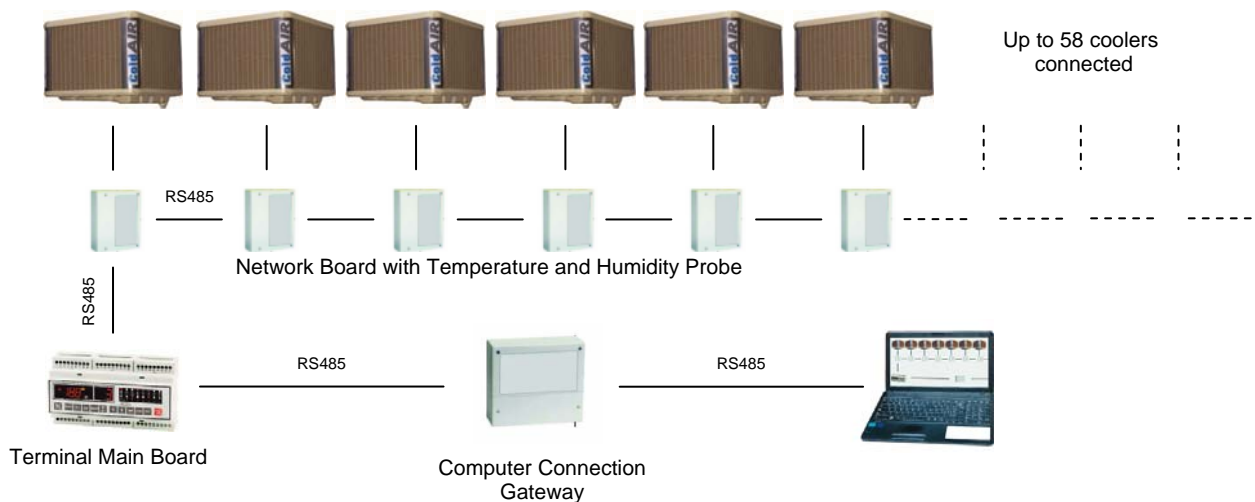

Introduction

The CBS system allows the management of up to 58 evaporative coolers through one digital main board that can be connected to a computer. With this system it is possible to control each unit or a maximum of 2 groups of units, all with the same function or each one different, adapting to the specific needs of the facility.

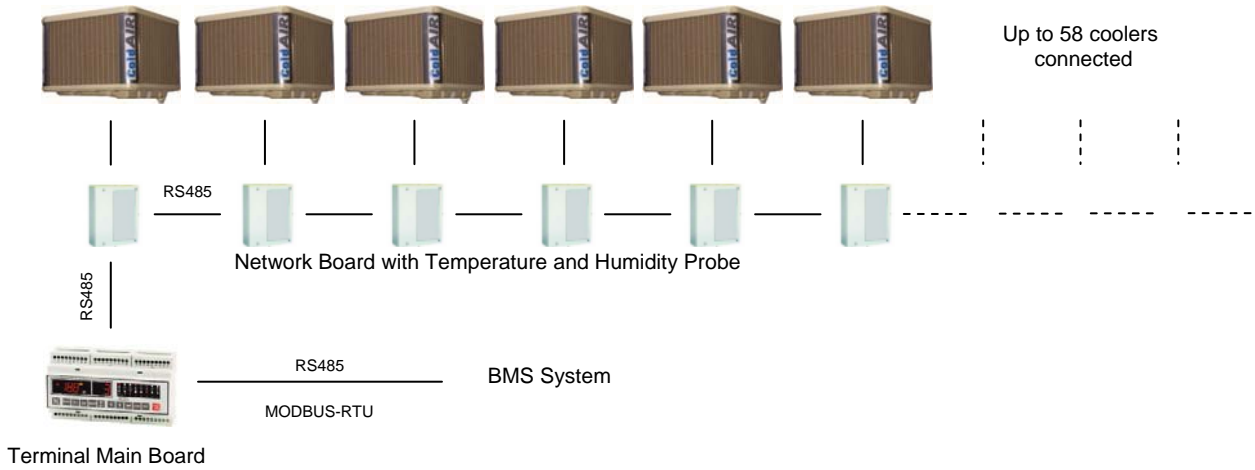

Controls - PC with Software

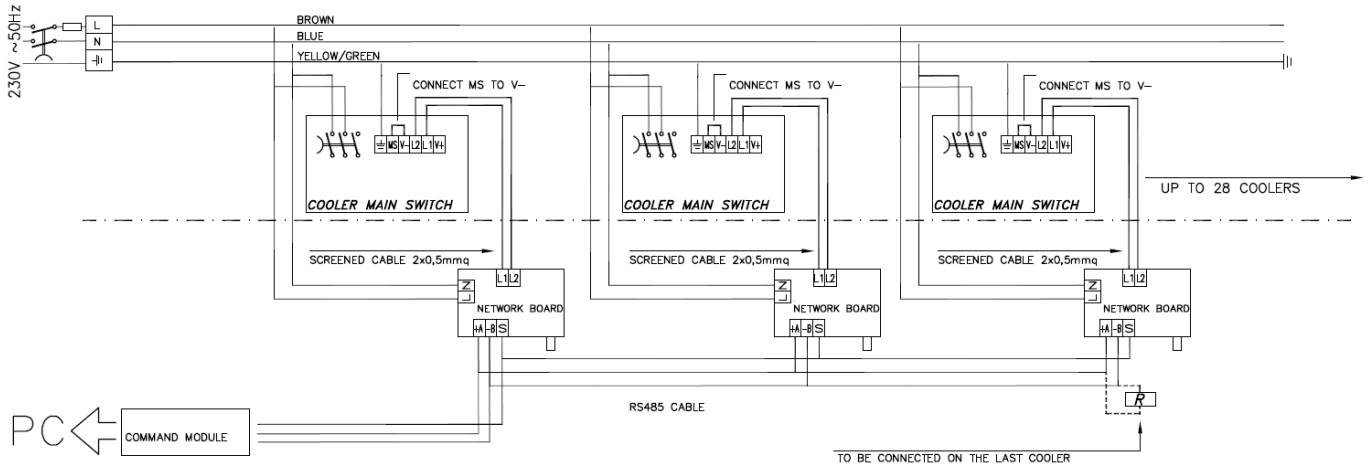

Controls - PC with Computer Connection Gateway and Software

Controls - BMS System via Modbus
